

INFECTION PREVENTION IN THE HEALTHCARE SETTING 2019 SPRING COURSES

Course #1 March 8, 14, 15, 22, 2019, 9am-3:30 pm

Beechwood Post Acute & Transitional Care 31 Vauxhall St New London, CT **OR**

Course #2 May 3, 9, 10, 17, 2019, 9am-3:30 pm

Noble Horizons 17 Cobble Road, Salisbury, CT

This **FOUR**-day certificate course incorporates federal CMS, state DPH and OSHA regulations, CDC and APIC guidelines to create a comprehensive Infection Prevention Program, using nationally recognized standards and evidenced based practices. It defines the professional roles and responsibilities of today's Infection Preventionist (IP). It meets the educational needs of the beginner and experienced IPs. Choose one course from the two locations being offered this spring. The next courses are being planned for Fall 2019 in Central Ct.

Attendees

Infection Preventionists, Nurses, Directors/Assistant Directors of Nursing, Professional Development/ Education Coordinators, from Long Term Care, Public Health, Community Health, Behavioral Health, Home Care and Emergency Medical Services.

Topics

CMS regulations related to Infection Prevention, survey preparation surveillance, data collection and analysis, antimicrobial stewardship, facility risk assessment, competency validation, OSHA Bloodborne Pathogens, Standard and Transmission Based Precautions, isolation, immunizations, injection safety, water management, outbreak prevention and control, environmental surveillance, multi drug resistant organisms, TB, Norovirus, C. difficile, research and presentation.

Registration: \$550.00, Late fee \$25.00 if not received two weeks before start of class.

Fees are not refundable, may be transferred to another employee. Reserve early- limited seating. Return the registration form and make check payable to:
